INC Pharma develops its pharmaceutical products at well-qualified R&D Centers and manufactures its products at contract manufacturers with EU and Turkish-GMP certification in full compliance with local and international regulations.

INC Pharma aims to extend its portfolio into a wider spectrum of products. In line with this aim, INC Pharma signs agreements with pharmaceutical companies to market their products in foreign markets.

As INC Pharma, we have been enlarging our commercial activities and widening our geographical coverage by adding new local distributors to our family of business partners.
